Harmonizing your **5** elements

The background is a complex composition of various shades of green. On the left side, there are several overlapping, organic, leaf-like shapes in different tones of green, some with darker centers. On the right side, there is a grid of semi-transparent squares in various shades of green, creating a layered effect. Three thin, dark green horizontal lines are spaced evenly across the image. The word "Natural" is written in a dark green, italicized serif font in the upper right quadrant, positioned above the top horizontal line. The word "Relax" is written in the same font in the center, positioned between the middle and bottom horizontal lines. The word "Safety" is written in the same font in the lower right, positioned below the bottom horizontal line.

## Soul Mate

An Inspiring Relaxing Aromatic Atmosphere

By choosing the **Cloverscent Electric Vaporiser**, you have chosen quality pottery, glazing and craftsmanship with a 12-month warranty.

Simply plug your **Cloverscent Electric Vaporiser** into the power source and allow it to heat up before adding 5 to 10 drops of your Cloverscent Essential oil. The aroma therapeutic benefits will be evident instantaneously. The oil will vaporise over 5 to 10 hours. **Cloverscent Electric Vaporiser** is perfectly safe to be left on permanently and uses less than AUS\$0.02 in electricity cost per 24 hours.

# The Inside Story

An Elegant And ECO-Friendly Hand-crafted in Natural Materials

By choosing the ***Cloverscent Electric Vaporiser***, you do your part to save the environment for future generation.

A candle is mostly carbon by weight, and candle wax is only moderately less dense than water at room temperature. This means that burning just 5 cm of a typical 2 cm diameter candle will produce more CO<sub>2</sub> than running a 100 watt light bulb for an hour.

With its low temperature control and economical power usage, your ***Cloverscent Electric Vaporiser*** provides a safe, clean, efficient and environmental-friendly method to vaporise your essential oils.

# Styling

Understand Elegance, Tailored For Individuals

The pottery involved in each ***Cloverscent Electric Vaporiser***, is made care and experience of a craftsman, The unit with its electrical component is assembled by hand, is calculated to fulfill the electrical standards requirements in Victoria (Australia).

# Safety And Security

## Reassurance in an Unpredictable World

With **Cloverscent Team's** passion to enhance your well being, your safety will be assured. As there is no naked flame, you will feel safe to turn it on all day and all night. It remains cool to the touch when in use.

Without any naked flame, hot water or hot melted wax, your **Cloverscent Electric Vaporiser** which comes with a fully insulated internal wiring system, will provide a safe environment for your family and children.

# Perfect Balance

## In Harmony with your World and In Harmony with the World

By choosing **Cloverscent Electric Vaporiser**, you have eliminated all the hassle to clean up messy candle wax from the traditional candle burner. It is easy to use and maintain. Just wipe the surface with a clean moist cloth when you have finished.

If your essential oil begins to build up, just heat and wipe it with a few drops of Eucalyptus oil. Your **Cloverscent Electric Vaporiser** is always clean and convenient to use at all times, thus providing a clean environment for you and your family.

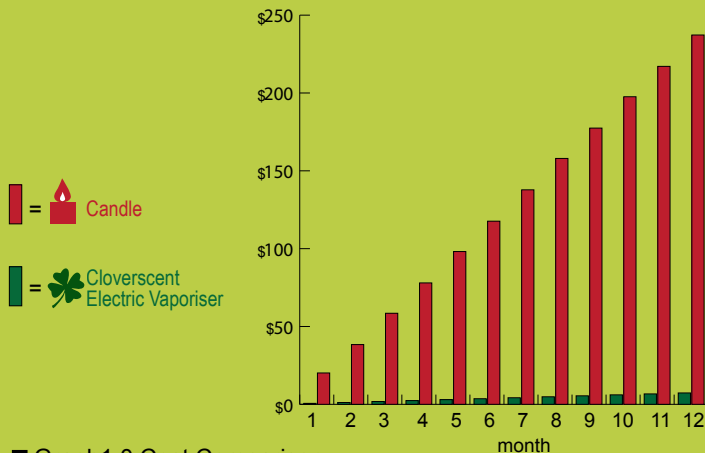

# Elegant And Efficient

An Exclusive Electric Vaporiser Designed to stir your soul

Compare the cost of running a **Cloverscent Electric Vaporiser** with burning a 9-hour candle. Using your **Cloverscent Electric Vaporiser** for 24 hours costs around AUS\$0.02 cents in Electricity.

Electricity cost for 24 hours a day all year round will amount to around AUS\$7.30. Conversely, burning a 9-hour candle costs around AUS\$0.65 cents. To burn 1 candle a day (9 hours) for a year will amount to around AUS\$237.25 (See Graph 1.0). Over a period of a year, AUS\$230.00 is a considerable saving. The self-regulating low temperature produces subtle and effective vaporisation.

Undeniably, your **Cloverscent Electric Vaporiser** provides an economical and efficient lifestyle for you and your family.

# Composed Quality

Technical Innovation - Meticulously Tested

The **Cloverscent Electric Vaporiser** does not require water to assist in the vaporisation of essential oils. As the low heat emitted by our specially designed recessed bowl surface is sufficient to vaporise the essential oils.

It has been known that the heat from a candle may alter or destroy certain constituents of the essential oils. Thus the therapeutic benefit may not be as optimal as using your **Cloverscent Electric Vaporiser**.

Furthermore, there is the issue of keeping replacement candles on hand. The aroma generally diffused by a candle burner is very light and does not usually emit the fragrance into the entire room. Your **Cloverscent Electric Vaporiser**, on the other hand, will cover larger area.

Your **Cloverscent Electric Vaporiser** is thoroughly tested before packaging. The **Cloverscent Team** presents the BEST in Australia's manufacturing, just for you.
